“Life on Earth is at immediate risk and only implementing the Earth Repair Charter can save it”.
Richard Jones, Former MLC, Independent, NSW Parliament, Australia

“The Earth Repair Charter is clearly an idea whose time has come. It inspires hope and optimism for a safer, saner and healthier future for everyone. I recommend it be included in all educational institutions”.
Jenny Kee, Australian designer/artist

“I am pleased to say that the Earth Repair Charter represents the best possible path for everyone to consider. Best wishes, Good luck”.
Peter Garrett, Midnight Oil and Past President of ACF

“The Earth Repair Charter is helping us to be enlightened in our relationship with the Earth and compassionate to all beings”.
H.H. The Dalai Lama

I was thrilled to receive your Earth Repair Charter and all my best wishes are behind it”.
David Suzuki, David Suzuki Foundation

“The Earth Repair Charter’s unique approach is capable of uniting all people, communities, religions and nations in the common purpose of solving Earth’s environmental, economic and social dilemmas”.
Burnum Burnum, Australian Author, Activist & Actor, 1936-1997

“The Earth Repair Charter has the capacity to galvanise action against the neglect by governments of that which should be most treasured - peace, justice and a healthy planet. I endorse it with great enthusiasm”.
Former Senator Lyn Allison, Australian Democrats

“The Earth Repair Charter is, in our opinion, a document that can greatly contribute to improving the quality of life on this planet”.
Donald Rojas, World Council of Indigenous People, Canada

JOIN WITH MILLIONS IN THE COMMON PURPOSE TO ACHIEVE THE OBJECTIVES OF THIS VISIONARY CHARTER, AND HELP CREATE A CULTURE OF LASTING PEACE ON EARTH.

Respect and honour all Peoples of the Earth

- * **uphold** the United Nations Charter;
- * **engage** with the wisdom of Indigenous Peoples and learn from their history, cultures and spiritual values;
- * **support** self-determination and sovereign treaty rights worldwide;
- * **facilitate** permanent representation of the world's Indigenous Nations and Peoples in all United Nations forums;
- * **honour** the inheritance and protection of traditional languages, knowledge, sacred materials and sites;
- * **learn** enlightening wisdom from the elders of all cultures.

Protect natural heritage and biodiversity

- * **respect** the Earth and take responsibility for all our actions realising the interconnectedness of life;
- * **cease** further destruction of and protect in perpetuity, all remaining biodiverse, high-conservation value native forests and other areas including lakes, rivers and oceans;
- * **respect** all sentient beings;
- * **prohibit** the contamination of air, soil and waterways through CSG;
- * **accelerate** training and employment programs to repair previously-cleared and degraded lands;
- * **plant** and companion grow, increasing quantities of permaculture designed food-forests to help end hunger and unemployment and mitigate climate change;
- * **preserve** and maintain the genetic purity and diversity of seeds, plants and animals in their natural habitats.
- * **implement** a moratorium on releasing genetically engineered crops which can interfere irreversibly with natural biodiversity;
- * **label** accordingly all foods altered with GMO and DNA technologies.

Enable ecologically sustainable development

- * **adopt** the world's best practices and reduce, reuse and recycle to minimise our consumption of Earth's finite resources;
- * **provide** adequate sustainable habitat to end homelessness;
- * **introduce** into education systems, reverence for nature and the essential life skills of family planning, birthing and parenting, first-aid, effective communication, self-esteem and creative expression;
- * **co-operate** internationally to reduce greenhouse-gas emissions by replacing fossil-fuel use with safe and renewable energy technologies;
- * **disengage** from nuclear industries and cease uranium mining until safety is ensured from all radioactive materials, mine tailings and by-products from the nuclear cycle;
- * **increase** the provision of and efficient use of public transport systems;
- * **utilise** environmentally responsible products and services, and deal only with materials manufactured or created within the principles of ecologically sustainable development;
- * **contribute** to inter-generational equity and justice by progressively planning for the wellbeing of future generations.

Acquire health and immunity efficiency

- * **incorporate** a complementary and wholistic approach into health care and medical sciences;
- * **practise** the wisdom of Hippocrates, who taught, "Let your food be your medicine and your medicine be your food";
- * **remember** that prevention is better than cure;
- * **attain** and maintain physical and mental wellbeing by combining an optimistic attitude, sleep, exercise and a nutritious diet of fresh, organically grown leaves, including sprouted seeds, nuts and grains, raw fruits, vegetables and herbs;
- * **abstain** from over-eating and health-reducing practices, such as smoking tobacco, and alcohol and drug abuse;
- * **inspire** everyone to realise their highest physical, mental and spiritual potential.

Use permaculture to help end world hunger

- * **supersede** unsustainable monoculture, toxic pesticide use and intensive animal factory-farming, with high-yielding, diverse, local, organic agricultural systems and free-range animal farming;
- * **establish** efficient food and medicine gardens as productive permaculture learning and growing centres, in schools, home yards, parks, gaols, juvenile and refugee detention centres;
- * **propagate**, plant and help grow food forests, inter-cropped with complementary vegetation, in all possible city, urban and rural areas to produce fruits, nuts, vegetables, herbs, grains, fibre, timber and fuel to increase ethical employment and help end hunger & poverty;
- * **promote** individual and community self-reliance through local exchange trading systems, and natural low-impact landcare strategies.

Practise composting to restore soils

- * **produce** valuable humus-rich soil for home, municipal, farm and forestry use by composting all continuously available biodegradable materials;
- * **recycle** used plastics into making great numbers of hygienic, aerobic, no-dig compost bins for every home yard to help food-forests to be grown everywhere possible;
- * **treat** sewage extracting bio-gas and irrigate trees to accumulate biomass.

Base economic order on social justice

- * **promote** equal opportunity for everyone;
- * **encourage** ethical investing and demand that corporate business and governments put the welfare of people before profits and military spending;
- * **support** the U.N. and grant amnesty for political prisoners, and relieve the debt burdens of impoverished countries;
- * **aim** for fair resource distribution to satisfy the essential needs of all to live with health and dignity.

Resolve conflict with creative mediation

- * **learn**, develop and encourage the skills of conflict resolution;
- * **expedite** participatory democracy between people and their elected governments and councils;
- * **establish** a Ministry for Peace within every government;
- * **nurture** equality, love, respect and understanding between individuals, genders, age groups, families, castes, communities, cultures and races;
- * **encourage** all religions, faiths, nations and peoples to co-exist in harmony as one family, sharing the Earth as our common home;
- * **uphold** the United Nations Universal Declaration of Human Rights and ensure freedom of speech for all;
- * **facilitate** equal worldwide access to education resources & communication technologies;
- * **investigate** and rectify all human rights violations;
- * **motivate** the media to be positive, accurate and responsible.

Transform the military to earth repair

- * **redirect** funding, expertise and resources from all national military services towards implementing this solution strategy as the priority within each country;
- * **enable** each nation to participate in developing the United Nations Global Peacekeeping Operations to ensure international security;
- * **decommission** and eliminate nuclear and biological armaments, depleted uranium, land mines, cluster bombs and all instruments of mass destruction.

Unite with others in a common purpose

- * **enhance** the future by helping achieve the local and global objectives of this Charter;
- * **network** to raise awareness of this solution strategy and propose its goals for adoption by education, religious, union, political, business, legal, military and community groups, local Councils, and for legislation by Governments;
- * **contribute** towards a peaceful and abundant Earth, where everyone can enjoy life in wisdom, happiness, harmony and love.

PRODUCED BY THE EARTH REPAIR FOUNDATION (ERF) AND THE ENVIRONMENT PROGRAM OF THE UNITED NATIONS ASSOCIATION OF AUSTRALIA (NSW) INC

PO Box 503, Katoomba NSW 2780 Blue Mountains Australia. info@earthrepair.net www.earthrepair.net ABN 21 003 198 981

This Charter was initiated in 1992 at the UN Earth Summit in Rio. It has grown through the contributions of hundreds of people.

Most people on Earth would know about this **solution strategy charter** from two people in 33 days, if they each shared it with one new person a day for 33 days, and each person receiving the strategy shared it with one new person a day for the balance of the 33 days. **Totals over 6 billion people.** When enough people lead our leaders will follow.

THIS IS A CHARTER FROM THE PEOPLE, FOR THE PEOPLE, AND FOR ALL GOVERNMENTS OF THE WORLD. CONTRIBUTIONS TO INCREASE ITS EFFECTIVENESS AND WIDER DISTRIBUTION ARE WELCOMED. PLEASE COPY OR REPRINT AND HELP PROMOTE THE CHARTER. THANK YOU!

“I love the Earth Repair Charter and give it my whole hearted endorsement”.

Noni Hazelhurst, Australian Actor

“The Earth Repair Charter is a visionary and exciting approach to solving the environmental and social crises facing the planet today. I’m proud to add my name to the list of supporters”. *Former Senator and Leader of Australian Greens, Dr Bob Brown*

“The Earth Repair Charter is a blueprint for united action by the Parliaments of the world. Through increased global co-operation, the precepts of the Charter can be brought to fulfilment”.

Former MP, Maggie Deahm, Australian Parliament

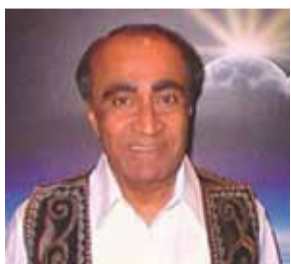

“People everywhere must now unite and demand that all politicians and policy makers implement demilitarisation and the objectives of the Earth Repair Charter to ensure the survival of future generations”.

Jonathan Bevan, LLB, United Peoples Association, Australia

“I consider that the Earth Repair Charter is self-evident as an achievable Global Solution Strategy. I urge every national government to adopt it as the priority within each country”.

Joanna Macy, PhD , Professor, Teacher, Author, Institute for Deep Ecology, USA

“I fully support the Earth Repair Charter. It is the way to enhance the future from further ignorance and environmental degradation, and to help create a safer, healthier and happier world”.

Dr Rashmi Mayur, Ph.D, Director, International Institute for Sustainable Future, India

“The Earth Repair Charter is a visionary statement that educates, inspires and motivates actions for peace on Earth”.

Dr Keith Suter, BA, PhD, Economic and Social Commentator

“People of all nations committing to this global solution strategy will regenerate the Earth’s beauty and richness, and allow quality life for all to become a sustainable reality”.

Dudley Leggett, Director, Sustainability Research Institute, Australia

“The Conflict Resolution Network endorses the Earth Repair Charter and will make every endeavour to achieve its noble aims”.

Stella Cornelius, AO, OBE, Director, Conflict Resolution Network

BE HERE NOW AND PARTICIPATE IN THE MOVEMENT FOR WORLD IMPROVEMENT

Think about these images as prompts for a whole system change! By implementing the Earth Repair Charter and Vision 2020 Global Solution Strategy, the maximum number of people can achieve the greatest benefits that will last for the longest time.

An ancient prediction says 'Nations will not learn war any more'. Now everyone can learn Permaculture! And grow herbs and veges, nuts and fruits, using homemade compost on the roots; plant food forests, clean the air, save old forests everywhere!

Peoples of the world unite, feed the hungry make it right. Lay down weapons live in peace, let the global conflicts cease. A safer world is what we need, we can help to sow the seeds...

We can all help grow this campaign for a whole system change by sharing these Thought-Seeds For Peace with increasing numbers of people ASAP. To learn more about the Earth Repair Charter and Vision 2020 Global Solution Strategy, visit earthrepair.net/

IMAGINE BACK FROM THE FUTURE ~ MOVIE OUTLINE

VISUALISE A WORLD WITHOUT WAR

~ WHAT IS NOW PROVEN WAS ONCE ONLY IMAGINED ~

~ INNER and WORLD PEACE ARE JUST A MOVIE AWAY ~

Development of this movie outline was a ten year contribution to the United Nations International Decade for a Culture of Peace and Non-Violence for the Children of the World, 2001 - 2010.

A script is being created showing achievement of the goals of the Earth Repair Charter and Vision 2020 Global Solution Strategy. The production is to be a movie and multi-media documentary. It will help enhance the future by showing everyone how to effectively live sustainably while enjoying continuous peaceful happiness and physical and mental good health. Writers and movie producers are invited to share creative intelligence to help develop this production to show the story in a realistic way that include the time-line objectives of this movie outline.

2020 🌱 A global Earth Repair Summit is held and World Peace is proclaimed as the international theme for the balance of the 21st Century. 🌱 People on Earth are empowered with enjoying inner peace, living in wisdom, happiness and love and manifesting abundance in their lives. 🌱 All nations and peoples are communicating and co-operating and enjoying peaceful co-existence. Humanity is enlightened!

~ *Here is how we got there* ~

2016 🌱 The war on terror eventually becomes the war that ends all wars as it initiates a creative mediation and conflict resolution process ensuring that war and violence are kept out of humanity's future. 🌱 Motivating begins for every nation to progressively transform their military expertise and resources to help implement the objectives of the Earth Repair Charter as a priority within each country. The Charter is recognised as a self-evident, practical and achievable global solution strategy towards the creation of a safe, sane and peaceful millennium for present and future generations. 🌱 This Earth Repair movie theme inspires, educates and motivates people everywhere into healthier, happier and more sustainable and peaceful lifestyles. 🌱 The universal perspective becomes increasingly prominent as regional and national borders are transcended, and increasing numbers of people see that the Earth is our common home and we are all members of the one human family. 🌱 'Sense Of Humus' composting and food growing initiatives are gaining global significance. 🌱 Previously-wasted and continuously available biodegradable materials are now being composted into humus-rich soil. 🌱 Well planned global strategies are implemented to propagate, plant and fertilise increasing quantities of garden food forests and crops to help stabilise the climate towards ending hunger and unemployment for all time. 🌱 Greenhouse gas emissions are decreasing globally with unprecedented co-operation between nations. 🌱 The practice of Permaculture (permanent sustainable agriculture) is integrated into all levels of society. 🌱 Efficient food and medicine gardens are established as productive permaculture learning and growing centres in schools, backyards, community gardens, and refugee detention, rehabilitation and corrective services facilities.

2016/17 🌱 McDonalds and Coca Cola and other similar fast food companies, adopt the menu proposals of McNaturals International Pty Ltd and now provide genuinely nutritious plant-based foods, drinks and ice blocks, to help people increase their immunity efficiency, health, vitality and contentment with life. 🌱 Significant advances are being made in the widespread use of simple, inexpensive and effective, self-help practices and health-care programs, bringing maximum benefits to people worldwide. 🌱 Smoking tobacco is banned in all enclosed and covered public places. 🌱 Smoking is prohibited where children are present to assist their health and to discourage all smoking and drug abuse. 🌱 The misunderstood plant Hemp is re-legalised for industrial use globally. 🌱 The healing herb Cannabis is formally adopted for medicinal use globally. 🌱 Bio-regional landcare systems are endorsed by governments everywhere, enabling more effective self-management of local ecosystems. 🌱 The United Nations General Assembly adopts the Earth Repair Solution Strategy as an International Decade theme. 🌱 All industries are now responsibly reducing, reusing and recycling their wastes. 🌱 An international moratorium on old growth and native rainforest logging is implemented. 🌱 All high-conservation value native forests and areas which support flora and fauna unique to these priceless, biodiverse ancient treasures, are now permanently protected. 🌱 The Global Indigenous Movement assumes collective co-custodianship of all remaining natural and protected World Heritage areas for the security of future and present generations. 🌱 The World's Indigenous Peoples are recognised as members in all United Nations forums. 🌱 Australia sets a human rights precedent for sovereignty and peace, by allocating the lands opposite and adjacent to Old Parliament House in Canberra to build a permanent Embassy to unite all the world's Indigenous, Aboriginal and Original Tribal Peoples.

2017 🌱 In Australia, Crown/Aboriginal land is granted for homeless people to establish tent villages within basic infrastructures, where Permaculture and life skills for personal sustainability can be learned. 🌱 Nations, now more than ever, redirect personnel, expert intelligence and resources from their military service sectors towards constructive and productive community advancement industries as a primary objective within each country.

🌱 Scientists work as a high priority on disposing of the dangerous wastes of warfare and the toxic wastes of industry. 🌱 Every nation now participates in the United Nations Peacekeeping Operations to ensure international security. 🌱 Global legislation is implemented to decommission and eliminate all nuclear and biological armaments, land mines and all other instruments and weapons of mass destruction. 🌱 Major progress is being made using renewable energy systems harnessing solar and wind power to desalinate and pump ocean water inland to rejuvenate arid areas.

2016/17 🌱 The World's population becomes stabilized through free family-planning education and a positive reduction of poverty in the third world. 🌱 Major progress is made with the planting and growing of Permaculture designed food forests, and implementing appropriate technologies for immediately and progressively freeing disadvantaged people from hunger and homelessness. 🌱 Uranium mining ceases as nuclear reactors are replaced by solar, wind and other clean, efficient renewable energy systems. 🌱 Nuclear wastes everywhere are guarded securely as safe and effective storage methods are implemented. 🌱 New technologies enable pollution free, clean power stations.

2017 🌱 Ecologically sustainable development becomes the priority among all nations and the world's best practices are adopted at every level of society to enable conservation of Earth's finite resources. 🌱 All basic education now includes respect for nature, the art of birthing and parenting, first-aid, effective communication, self-esteem and creative artistic expression. 🌱 Optimistic nowist thinking is spreading as people begin enjoying the latest as the greatest. 🌱 The nations of Earth are now enthusiastically involved with an international tree and food growing race, instead of an arms race. 🌱 Trees propagated, planted and successfully grown using humus-soil, rock mulch and the latest methods, doubles each year, and rainforest logging and wood chipping of high-conservation value native forests has finally ended worldwide. 🌱 Entire degraded ecosystems are regenerated as vital nutrients are returned to the earth through the mass-production of humus by composting. 🌱 Artificial fertilisers are replaced by fine rock-dust and humus to re-mineralise soils, increase the nutrient value of food crops and boost resistance to plant disease; 🌱 Sewage is treated extracting bio-gas and irrigating trees to accumulate bio-mass.

2017/18 🌱 Permaculture and other natural organic growing methods provide employment and food for increasing numbers of people. 🌱 Large scale Spirulina farms are established in numerous sun-drenched areas to provide people with the abundance of chlorophyll rich nutrients contained in this complete whole food algae. 🌱 Wildlife populations increase and animal experiments and exploitation are minimised. 🌱 Increasing numbers of people turn to a raw living plant-food diet. 🌱 Humanity develops a respect for, and comprehension of, the inter-connectedness and inter-dependence of all life forms.

2018 🌱 A complementary and wholistic approach is now integral to medical science and health care.

🌱 Diseases such as cancer, AIDS and other severe illnesses, dramatically reduce through natural and preventive healing practices. 🌱 People become more vital and healthy as they practice the principles advocated by Hippocrates, the founder of modern medicine who taught "Let your food be your medicine". 🌱 The increasingly popular practice of growing and eating fresh, organically-grown vegetables, fruits, sprouted seeds, nuts, herbs and grains, eaten raw or lightly cooked, enable people everywhere to naturally acquire immunity efficiency and attain and maintain good health in their bodies and minds. 🌱 Resources and budgets previously used for military services have been transferred to peace and prosperity-generating activities thereby substantially increasing employment, and eliminating poverty and hunger. 🌱 Global systems are now in place to minimise the demand for environmentally costly mining operations and the dangers of transporting and using oils and other hazardous chemicals.

2019 🌱 The world's religions, political ideologies and sciences have transformed conflict into peaceful resolution, and unite in the spirit of wisdom, recognising the essence of truth in all faiths and beliefs. 🌱 Individuals become committed to the optimistic way and now see themselves as eternally-conscious, precious, spiritual beings having a human experience on Earth, here in the infinite universe. 🌱 The majority of people are working and living in harmony with nature and creating a peaceful paradise food garden on Earth rewarding everyone with good-health, happiness, prosperity and abundance.

2020 🌱 A worldwide week long celebration beginning on Earth Day (April 22nd, 2020) acknowledges the success of this Decade for Earth Repair Action and WorldPeace, now being enjoyed by everyone.

PLEASE READ OR DISPLAY PROMINENTLY FOR REGULAR CONSIDERATION.

You are welcome to network this film outline wherever or whenever you think appropriate. Copy, circulate, translate, broadcast, display or publish it towards a sustainable future with all people united in inner and world peace.

Creative writers and movie makers are invited to help make this outline and the Earth Repair Charter an effective global solution strategy to be implemented from now on.

To communicate enquiries or suggestions for this document, please contact the addresses or numbers below. Thank you.
