

AUSTRALIA'S FAMOUS SMILING POLICEMAN

Geoffrey B.W. Little JP

In 2017 Geoffrey attended Rotary meetings in Trinidad and Tobago where he was a guest speaker on the United Nations International Day of Peace, 21st September 2017.

Geoffrey was also promoting Rotary International's Peace Cities and Rotary's District Communities Peace Projects.

The first Rotary declared Peace City in the world began in Wagga Wagga, NSW, Australia in 1993.

Click to listen to Geoff the Smiling Policeman Song <https://soundcloud.com/polepfor/01-jeff-the-smiling-policeman-1>

On the journey, Geoffrey began Thought-Seeding the Vision 2020 Earth Repair Solution Strategy for Rotary International to consider including in their Global Peace Initiative.

LATEST NEWS:

The World's first **Global Earth Repair Conference** is to be held, May 3-5 2019

at Port Townsend, Pacific NorthWest, Washington State, USA.

Click to discover details: <http://earthrepair.friendsofthetrees.net>

Thank you for reading this, and may you continuously enjoy optimism and the latest time as your best time. **Read further and possibly print the following colourful poster pages designed to help create a safer, healthier, happier, more peaceful and sustainable world for present and future generations.**

Global Earth Repair CONFERENCE

"...what is needed is a real grass-roots, bottom-up, locally-managed restoration mass underground movement of informed people, a groundswell of popular opinion driven by a green ethos, to regreen our planet and recarbonize our soil." —Quote from *Geotherapy*. Thomas Goreau, et al.

PO Box 503, Katoomba, Blue Mountains, NSW 2780, Australia
Phone: (02) 4782 2625 Mobile: 0408 267 195 ABN # 21 003 198 981
Email: info@earthrepair.net Internet: earthrepair.net

The Earth Repair Foundation (ERF) and the Blue Mountains Branch of the United Nations Association of Australia Inc, are networking for world-wide acceptance and implementation of the Earth Repair Charter Global Solution Strategy.

Ladies and Gentlemen, after returning from Rotary meetings in Trinidad and Tobago where I was a guest speaker on the United Nations International Day of Peace, 21st September, 2017, I'd now like to introduce you to the Vision 2020 Earth Repair Global Solution Strategy.

On behalf of an Australian initiative from a long time friend and colleague Mr Franklin Scarf, Convener of the Earth Repair Foundation (ERF) and a fellow Executive Member of UNAA(NSW) ([see resume](#)), I wish to invite readers and all those who love our planet and who believe in sustaining, enhancing and conserving our environment for present and future generations, to consider participating in the Vision 2020 Project.

Franklin and the Earth Repair Foundation have been a consistent part of UNAA (NSW) for 46 years, and because I am an appointed Ambassador to the Project, we would like to invite all members of Rotary and delegates to consider the Vision 2020 Thought-Seeding Project as a potential element in Rotary's global PEACE initiative. This invitation is also for all other individuals and peace groups too.

The Vision 2020 project falls within the guidelines of the final E in the word PEACE as used by Rotary representing Environment, Conservation and Preservation, complementing the many and varied existing initiatives which abound in Rotary worldwide.

Vision 2020 is a collection of feasible and achievable solutions defined over decades after deep research and wide consultation. These solutions are now presented as Thought-Seeds for everyone to consider.

The work is based on the less is more principle so there is much import in these pages which have had intelligence contributed by many and various people. May you find the ideas inspiring, enjoyable and useful.

By sharing this Vision 2020 file link with friends, family and on social media networks, you will be part of the solution and making a practical contribution to community advancement and world improvement.

The following pages can be printed into posters for display where easily seen. They comprise:

- The Earth Repair Charter Global Solution Strategy ~ ERF's Manifesto;
 - Two pages of Earth Repair Charter Endorsements by eminent people from around the world;
 - A rainbow bright One World Peace Poster, thought-seeding a Whole System Change;
 - Announcing the start of Vision 2020 Now Age Solution Strategy with Mind-Vitamin Thought-Seeds;
 - A Vision 2020 statement to help end war and famine for all time; With A Vision, Humanity Will Thrive;
 - Sense of Humus Composting and food growing pages, and a proposed Permaculture Learning Poster;
 - A list of achievable objectives; many of which have the potential to be attained before the end of Year 2020,
 - A proposed Multi-Faith Temple in Jerusalem dedicated to Optimism and Now as the best time for everyone:
- plus more ... We thank you in advance for participating.

EARTH REPAIR CHARTER

WE ARE HERE ON EARTH, NOW ORBITING THE SUN, PART OF THE MILKY WAY GALAXY IN THE INFINITE UNIVERSE

GLOBAL SOLUTION STRATEGY

ADOPTION OF THIS VISIONARY CHARTER WILL HELP SOLVE CRITICAL PEACE AND ENVIRONMENTAL PROBLEMS EFFECTING ALL LIFE ON EARTH.

Respect and have compassion for all Life on Earth

- * **engage** with the wisdom of Indigenous Peoples and learn from their history, culture and spiritual values;
- * **honour** the inheritance and protection of traditional languages, knowledge and sacred sites;
- * **support** self-determination and sovereignty treaty rights worldwide;
- * **facilitate** permanent representation of the world's Indigenous Nations and Peoples in all United Nations forums;
- * **recognise** gender equality and respect all men, women, children and elders;
- * **uphold** the United Nations Universal Declaration of Human Rights.

Protect natural heritage and biodiversity

- * **respect** the Earth and take responsibility for all our actions realising the interconnectedness of all life;
- * **cease** further destruction of and protect in perpetuity, all remaining biodiverse, high-conservation value native forests and other areas including lakes, rivers and oceans;
- * **ban** the hunting of wild animals for sport;
- * **stop** the contamination of air, soil and waterways through ceasing the burning of coal, oil and gas;
- * **accelerate** training and employment programs to repair cleared and degraded lands;
- * **plant** and help grow increasing quantities of appropriate trees to drawdown atmospheric carbon dioxide and mitigate climate change;
- * **preserve** and maintain the genetic purity and diversity of seeds, plants and animals in their natural habitats;
- * **implement** a moratorium on genetically engineered crops which can interfere irreversibly with natural biodiversity;
- * **label** accordingly all foods altered with GMO and DNA technologies.

Achieve the UN's Sustainable Development Goals

- * **adopt** the world's best practices and reduce, reuse and recycle to minimise our consumption of Earth's finite resources;
- * **provide** adequate sustainable habitats to end homelessness;
- * **implement** into education systems, reverence for nature and creative thinking;
- * **co-operate** internationally and locally to increase use of renewable energy technologies to reduce greenhouse-gas emissions;
- * **disengage** from nuclear industries and end uranium mining;
- * **increase** the provision of, and efficient use of public transport systems;
- * **support** the international Rights-Of-Nature movement;
- * **utilise** environmentally responsible products, services, and deal only with materials manufactured or created within the principles of ecologically sustainable development;
- * **build** appropriate local facilities for waste processing;
- * **ensure** inter-generational equity by planning ahead for the well being of future generations.

Acquire health and immunity efficiency

- * **integrate** a complementary and wholistic approach with natural health care and medical sciences;
- * **practise** the wisdom of Hippocrates, who taught, "Let your food be your medicine and your medicine be your food";
- * **attain** and maintain physical and mental well being by combining an optimistic attitude, adequate sleep, exercise and a nutritious diet;
- * **predominantly** eat plant based, enzyme-rich food, towards eliminating meat;
- * **remember** that prevention is better than cure;
- * **end** all forms of bullying;
- * **take 'me' time** to meditate and pray;
- * **abstain** from overeating and health-reducing practices such as smoking tobacco, alcohol and drug abuse;
- * **implement** into all education systems knowledge about the essential life skills of first-aid, effective communication, self-esteem and creative expression;
- * **provide** free family planning, birthing and parenting advice;
- * **inspire** everyone to realise their highest physical, mental and spiritual potential.

Use permaculture to help end world hunger

- * **supersede** unsustainable monoculture, toxic pesticide use and intensive animal factory-farming, with high-yielding, diverse, local, resilient, organic agricultural systems and smaller scale animal husbandry;
- * **establish** efficient food and medicine gardens as productive permaculture learning and growing centres, in schools, home yards, parks and at all prisons and detention centres;
- * **propagate**, plant and help grow food-forests, inter-cropped with complementary vegetation, in all appropriate urban and rural areas to produce fruits, nuts, vegetables, herbs, grains, hemp fibre, timber and fuel to increase ethical employment and help end hunger & poverty;
- * **promote** individual and community self-reliance through local employment & exchange trading systems.

Practice composting to restore soils

- * **produce** valuable humus-soil for home, municipal, farm and forestry use by composting all continuously available biodegradable materials;
- * **recycle** used plastics into making increasing numbers of hygienic, aerobic, no-dig composting bins for every home yard.
- * **breed** Earth worms and make humus-soil to help healthy food-forests grow organically in all appropriate places;
- * **treat** sewage and irrigate trees to accumulate biomass;
- * **transition** from mining gas to capturing and utilising bio-gas.

Base economic order on social justice

- * **promote** equal opportunity for everyone;
- * **encourage** ethical investing and demand that corporate business and governments put the welfare of people before profits and military spending;
- * **support** the UN's Sustainable Development Goals;
- * **relieve** the debt burden of impoverished countries;
- * **aim** for fair resource distribution to satisfy the essential needs for all to live with health and dignity.

Resolve conflict with creative mediation

- * **learn**, develop and encourage the skills of conflict resolution;
- * **expedite** participatory democracy between people and their elected governments and local councils;
- * **establish** a department for peace within every government;
- * **replace** opposition party politics with collaboration in governments;
- * **nurture** equality, love, respect and understanding between individuals, genders, age groups, families, communities, cultures and races;
- * **encourage** all religions, faiths, nations and peoples to live in harmony as one family, sharing the Earth as our common home;
- * **facilitate** equal worldwide access to education resources and communication technologies;
- * **ensure** freedom of speech for all;
- * **investigate** all human rights violations;
- * **grant** an international amnesty for all political prisoners;
- * **demand** that the news media be truthful, accurate and responsible.

Transform the military to peacemaking

- * **redirect** funding, expertise and resources from all national military services towards implementing environmental restoration programs to solve Earth's climate crisis;
- * **enable** each country to participate in empowering the United Nations Global Peacekeeping Operations to ensure international security;
- * **decommission** and eliminate nuclear and biological armaments, depleted uranium, land mines, cluster bombs and all weapons of mass destruction.

Unite with others to enhance the future

- * **contribute** by helping achieve the local and global objectives of the Earth Repair Charter;
- * **network** to raise awareness of this Solution Strategy for adoption by the Global Earth Repair Conference; education, religious, union, political, military, local Councils and community groups;
- * **treat** planet Earth as common ground where all people can enjoy life in co-operation for peace, love, freedom and happiness.

Started in 1990 and last revised: 29th March, 2019

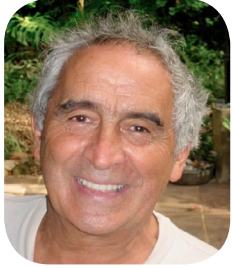

PRODUCED BY THE EARTH REPAIR FOUNDATION (ERF) AND THE BLUE MOUNTAINS BRANCH OF THE UNITED NATIONS ASSOCIATION OF AUSTRALIA (NSW) INC
PO Box 503, Katoomba NSW 2780 Australia. info@earthrepair.net www.earthrepair.net Phone: +61 0408 267 195 ABN 21 003 198 981
This Charter was initiated in 1992 at the United Nations Earth Summit in Rio. It has grown through the contributions of thousands of people.

Everyone on Earth would know about this **solution strategy charter** from two people in 34 days, if they each shared it with one new person a day for 34 days, and each person receiving the strategy shared it with one new person a day for the balance of the 34 days. **Totals over 7.5 billion people. When enough people lead our leaders will follow.**

THIS IS A CHARTER FROM THE PEOPLE, FOR THE PEOPLE, AND FOR ALL GOVERNMENTS OF THE WORLD. CONTRIBUTIONS TO INCREASE ITS EFFECTIVENESS AND WIDER DISTRIBUTION ARE WELCOMED. PLEASE COPY OR REPRINT AND HELP PROMOTE THE CHARTER. THANK YOU!

Join with these Earth Repair Charter endorsers and like and share this Now Age global solution strategy towards helping make the whole world great for everyone. Share earthrepair.net

“Life on Earth is at immediate risk and only implementing the Earth Repair Charter can save it”.

Richard Jones, Former MLC, Independent, NSW Parliament, Australia

“The Earth Repair Charter is clearly an idea whose time has come. It inspires hope and optimism for a safer, saner and healthier future for everyone. I recommend it be included in all educational institutions”.

Jenny Kee, Australian designer/artist

“The Earth Repair Charter is the way to rescue the future from further ignorance and environmental degradation. Please promote the Charter to help create a safer, healthier and happier world”.

Geoffrey BW Little JP, Australia's Famous, International Smiling Policeman

“The Earth Repair Charter is helping us to be enlightened in our relationship with the Earth and compassionate to all beings”.

H.H. The Dalai Lama

I was thrilled to receive your Earth Repair Charter and all my best wishes are behind it”.

David Suzuki, David Suzuki Foundation

“I am pleased to say that the Earth Repair Charter represents the best possible path for everyone to consider. Best wishes, Good luck”.

Peter Garrett, Midnight Oil and Past President of ACF

“The Earth Repair Charter has the capacity to galvanise action against the neglect by governments of that which should be most treasured - peace, justice and a healthy planet. I endorse it with great enthusiasm”.

Former Senator Lyn Allison, Australian Democrats

“The Earth Repair Charter is, in our opinion, a document that can greatly contribute to improving the quality of life on this planet”.

Donald Rojas, World Council of Indigenous People, Canada

Join with these Earth Repair Charter endorsers and like and share this Now Age global solution strategy towards helping make the whole world great for everyone. Share earthrepair.net

“I love the Earth Repair Charter and give it my whole hearted endorsement”.

Noni Hazelhurst, Australian Actor

“The Earth Repair Charter’s unique approach is capable of uniting all people, communities, religions and nations in the common purpose of solving Earth’s environmental, economic and social dilemmas”.

Burnum Burnum, Australian Author, Activist & Actor, 1936-1997

“The Earth Repair Charter is a blueprint for united action by the Parliaments of the world. Through increased global co-operation, the precepts of the Charter can be brought to fulfilment”.

Former MP, Maggie Deahm, Australian Parliament

“People everywhere must now unite and demand that all politicians and policy makers implement demilitarisation and the objectives of the Earth Repair Charter to ensure the survival of future generations”.

Jonathan Bevan, LLB, United Peoples Association, Australia

“I consider that the Earth Repair Charter is self-evident as an achievable Global Solution Strategy. I urge every national government to adopt it as the priority within each country”.

Joanna Macy, PhD , Professor, Teacher, Author, Institute for Deep Ecology, USA

“The Earth Repair Charter is a visionary and exciting approach to solving the environmental and social crises facing the planet today. I’m proud to add my name to the list of supporters”.

Former Senator and Leader of Australian Greens, Dr Bob Brown

“The Earth Repair Charter is a visionary statement that educates, inspires and motivates actions for peace on Earth”.

Dr Keith Suter, BA, PhD, Economic and Social Commentator

“People of all nations committing to this global solution strategy will regenerate the Earth’s beauty and richness, and allow quality life for all to become a sustainable reality”.

Dudley Leggett, Director, Sustainability Research Institute, Australia

“The Conflict Resolution Network endorses the Earth Repair Charter and will make every endeavour to help achieve its noble aims”.

Stella Cornelius, AO, OBE, Director, Conflict Resolution Network, 1919-2010

Let us co-create a culture of world peace that will end war and famine for all time

This VISION 2020 emblem is a modern interpretation of an ancient prophecy that says: 'nations will not learn war any more'. Let this be the time for people everywhere to unite in peace and make this prophecy actual. Everyone can now learn and practice the principles of permaculture* and how to live long, healthy, happy, loving and peaceful lives. Permaculture ethics are, Earth Care, People Care, Fair Share.

"Planting and helping grow increasing quantities of appropriate trees is the scientific solution to Earth's environmental dilemma". Dr Richard St Barbe Baker, Founder, Children of the Green Earth, 1889-1982

Everyone is invited to participate in this ongoing and achievable quest for all nations to transition from wasteful military budgets towards helping make our Earth become fully self-sustaining. With a realistic global vision, people and humanity will thrive.

By planting and helping grow an abundance of permaculture designed food-forests, together we can create ethical, honourable and practical employment whilst providing an abundance of fresh healthy living foods for everyone.

This world-wide quest is achievable within a decade by increasing numbers of people learning permaculture principles and ethics, and implementing practical life-enhancing skills in all areas of life.

[Click for details of the ongoing Global Earth Repair Conference ~ earthrepair.friendsofthetrees.net](http://earthrepair.friendsofthetrees.net)

Vision 2020 motivates for all continuously available and appropriate bio-degradable materials to be composted via hygienic, aerobic, no-dig, earth-repair composting bins made from 100% recycled plastics.

This will enable the breeding of increasing numbers of Earth Worms and massive amounts of humus-soil, to be used in helping nature organically grow forest-food gardens in home-yards and all other appropriate places throughout the world. Enough people doing this will help mitigate and reverse climate change, enhance local and global co-operation, create valuable natural resources, employment and end hunger.

The vision is for a world community of caring and sharing people, working and living in good health, peace and sustainable abundance.

**permaculture = permanent culture + agriculture. It's a social design science that is already helping humanity to thrive.*

Learn more now by browsing through the hundreds of pages of picture stories and videos at <https://permaculturenews.org>

Vision 2020 is part of the Earth Repair Charter Global Solution Strategy @ earthrepair.net

This initiative is endorsed by: Transition Blue Mountains; Permaculture Blue Mountains; the Environment Program of the United Nations Association of Australia (NSW) Inc; United Peoples Association Australia; and Sustainability Research Institute, Australia.

Earth Repair Foundation (ERF) PO Box 503 Katoomba 2780 info@earthrepair.net

Revision: 05/04/2019

If you like this thought-seeding initiative, please share it with as many people as you can. Thank you!

**An ancient prophecy says:
'Nations will not learn war any more'.**

Let this be the time for people everywhere to unite in peace and make this prophecy an actual reality. Now nations can learn and practice the principles of permaculture and how all citizens can live long, healthy, happy, loving and peaceful lives. *Permaculture ethics are, Earth Care, People Care, Fair Share.*

As adoption of the [Earth Repair Charter ~ Vision 2020](#) [Global Solution Strategy](#) self-perpetuates, there will be an abundance of funding, personnel and resources available TO:

1. Transition from wasteful global military budgets (\$3 Trillion a year) to help achieve the UN's Sustainable Development Goals and also help fund everything on the following list:
2. Redirect funds, personnel and resources from all national military service sectors to implement global earth repair projects in co-operation with the World community to help solve Earth's environmental dilemma;
3. Purify and regenerate the land, seas, lakes and rivers;
4. Provide safe clean water for all;
By creating large-scale solar and renewable-energy powered desalination plants and pumping stations in strategic locations throughout the world, then piping the purified water to arid areas. This will enable garden food-forests to be growing in increasing abundance to end hunger and unemployment, once and for all;
5. Compost all the continuously available bio-degradable materials to breed increasing numbers of Earth Worms and at the same time create increasing volumes of humus-soils;
6. Recycle plastics to make hygienic, aerobic, no-dig composting bins for every home yard so all bio-degradable resources can be returned to the Earth as humus;
7. Establish productive permaculture food-forests in all appropriate places to end hunger & unemployment;
8. Implement the learning of permaculture ethics & principles in every school towards ending hunger & under employment;
9. Supersede using toxic fertilisers for organic methods in the growing of all food crops including cotton & hemp for fibre;
10. Treat sewage to make compost to help trees grow;
*"Planting and helping grow increasing quantities of appropriate trees is the scientific solution to Earth's environmental dilemma."
Dr Richard St Barbe Baker, Founder 'Children of the Green Earth';*
11. Protect in perpetuity all remaining high conservation value native forests; Conserve Bio-diversity;
12. Support the International Rights of Nature movement;

13. Accelerate plantation forestry;
14. Provide free universal health-care for all citizens;
15. Teach the wisdom of Hippocrates who taught "Let your food be your medicine and your medicine be your food".
16. Show all how to acquire good health & immunity efficiency;
17. End malnutrition & starvation, & also over-eating & obesity;
18. Implement an International Bill of Human Rights;
19. Recognise Sovereignty Treaty Rights for all Indigenous Nations and Peoples by giving a fair share of the profits taken from their traditional and sacred lands; and ensure their full representation in all United Nations Forums;
20. End homelessness world-wide;
21. Help establish democracies globally;
22. Implement only renewable energy systems;
23. Replace opposition party politics with collaboration parties in all governments;
24. Provide free family planning, and birthing & parenting advice;
25. Retire developing nation's debts;
26. End racial and religious tensions by recognising our one humanity and Earth as the common home for all people; and righting all wrongs;
27. Prevent further global warming and ozone depletion;
28. Replace single use plastics with non-polluting alternatives;
29. Disarm all nuclear weapons and ban all weapons of mass-destruction; eradicate all land mines;
30. End self-harm and suicide by implementing drug abuse control strategies on tobacco and alcohol use;
31. Solve illiteracy;
32. Recognise gender equality with love for all;
33. Educate to end domestic violence and teach Peace NOWwww Meditation to all people;
34. Reveal how Heaven, Nirvana, Samadhi and Satori are within everyone's potential for immediate access; Satori means Instant Enlightenment;
35. Declare Inner and World peace for all time.

Produced by the **Earth Repair Foundation (ERF)**. A voluntary, not-for-profit group aspiring to raise awareness and funds to promote implementing the **Earth Repair Charter and Vision 2020 Now Age Global Solution Strategy**. This is to support achieving the UN's Sustainable Development Goals and enable a transition to a safer, saner, healthier, happier, sustainable and peaceful future for all.

Last revised: 29th March, 2019

Earth Repair Foundation (ERF)
PO Box 503, Katoomba, 2780, NSW, AUST.
info@earthrepair.net ABN # 21 003 198 981
The acronym **ERF** also stands for **Earth Repair First, Earth Repair Family, Earth Repair Friends and Earth Repair for a Fabulous Future.**
ERF Worm is the Foundation's Official Mascot!

“What the World Needs Now IS A SENSE OF HUMUS

Compost, instead of waste, to breed Earth worms and make humus-soil, helping nature to grow the healthiest food, is FUN-WORK, not toil.

Towards achieving a no-waste society, this campaign is motivating the world community to reduce, reuse and recycle all plastic products and to re-manufacture these into composting bins for every home yard.

The bins are hygienic, aerobic and conical shaped, like the bins pictured here, although these bins have had eight x 3mm holes drilled into them in a symmetrical grid, and one in the lid providing continuous aeration enabling the use of the no-dig method.

Composting bins can be used in every home yard to stop the waste and process ALL the continuously available bio-degradable resources to produce increasing quantities of earth worms and humus-rich soil to use in helping grow permaculture designed urban and rural food-forests in all appropriate places.

As this activity accelerates globally, it will enable unlimited ethical and honourable

employment, enhance local and global co-operation, produce an abundance of fresh, healthy, living plant foods and ensure ongoing food security for all time. This activity will also help mitigate climate change and reverse global warming.

Every compost stack is an earth repair bank and every deposit made is an investment into a sustainable future.

Please share this thought-seeding strategy with your friends and families and be part of the action to help accelerate the Vision 2020 paradigm to paradise, and a world community of caring and sharing people living in good health, peace, happiness and sustainable abundance.

This campaign is being conducted by the Earth Repair Foundation (ERF) in alliance with the Blue Mountains Branch of the United Nations Association of Australia (NSW) Inc. info@earthrepair.net

Last revised: 20th January, 2019

"What The World Needs Now is A SENSE OF HUMUS"

Composting to help grow increasing quantities of fruit and nut trees with herbs and vegetables companion-planted under and around them, and irrigating with minimum resources and maximum yield systems, will become the world's most productive employment activity to help end hunger by providing healthy living foods for everyone.

Photocopy enlarge this Sense Of Humus - How To Compost poster so that it is easier to read.

COLOUR IN IF YOU WISH PLEASE DISPLAY PROMINENTLY

HOW TO COMPOST

PRESENTLY-WASTED BIO-DEGRADABLE MATERIALS INTO HUMUS TO REVITALISE SOILS AS A GIFT FOR MOTHER NATURE

HUMUS IS PRODUCED BY COMPOSTING DECAYING ORGANIC MATTER. IT'S AN EFFICIENT AND PRACTICAL WAY TO REPAIR THE EARTH BY RESTORING DEGRADED SOILS TO HELP PLANTS GROW.

HUMUS - IT'S HYGIENIC - IT'S SIMPLE

IT'S MADE FROM

- LAWN CLIPPINGS
- TEA LEAVES
- SHREDDED PAPER
- SEWAGE
- FOOD SCRAPS
- MULCHED VEGETATION
- KITCHEN COMPOST BUCKET
- MANURE
- RECYCLABLE COLLECTION BAGS
- PAULOWNIA TREE
- FRUIT & VEGE. REFUSE

HOW IT'S MADE ON A LARGE SCALE

BIO-STABILISER MUNICIPAL COMPOSTING PLANT USING GARBAGE AND SEWAGE SLUDGE MIXED WITH FINE GROUND MINERAL ROCK FERTILISERS

RECEIVING INGREDIENTS MIX & FEED INTO PROCESS

ALL HARMFUL PATHOGENS ARE DESTROYED BY NATURAL HEAT PROCESSES COMBINED WITH MODERN METHODS

CONTINUOUSLY ROTATING CYLINDERS

MATURING WINDROWS

TO WINDROWS

OUT

HUMUS IS BAGGED OR TRANSPORTED IN BULK LIKE ANY OTHER FERTILISER

HOW IT'S MADE IN BACKYARDS

WHAT HAPPENS

Mixed layers of organic materials kept moist and aerated, are decomposed by bacterial activity.

The temperature rises to 55°C - 60°C killing harmful pathogens and weed seeds.

Earth worms multiply in these ideal conditions creating humus-rich soil which is optimum fertiliser for any vegetation.

COMPOST DON'T WASTE MAKE HUMUS SOIL, GROWING FOOD IS FUN-WORK NOT TOIL. CAN BE PLANT NOT TOIL.

WHAT IT'S USED FOR

- MULCH FOR GARDENS
- ORCHARDS
- POT PLANT MIX
- REVITALISING SOILS
- SEEDLINGS
- FOOD PARKS
- BULK HYGIENIC HUMUS
- NATURAL FERTILISER

WHAT THE RESULT IS

- CLEAN AIR
- LESS POLLUTION
- HEALTHY PLANTS & TREES
- CLEANER OCEANS & RIVERS
- HYGIENIC RECYCLED WATER
- HEALTHY FRUIT & VEGIES FREE FROM DISEASE & PESTS
- EARTHWORMS - THE GARDEN'S FRIEND
- HAPPY HEALTHY PEOPLE

WHAT THE WORLD NEEDS NOW IS A SENSE OF HUMUS

HELP ENHANCE THE FUTURE! PARTICIPATE IN CO-CREATING A WORLD'S BEST PRACTICE MULTI-LANGUAGE LEARNING POSTER FOR EVERY SCHOOL TO ENABLE A SUSTAINABLE FUTURE!

The Earth Repair Foundation is aspiring to help create this poster for every classroom wall and language. Its purpose is to provide information about the art of living skillfully in the 21st Century. It is to motivate everyone to participate in earth repair actions to help grow food and appropriate trees to mitigate global warming and enable climate stability.

“Planting and helping grow increasing quantities of appropriate trees is the scientific solution to Earth’s environmental dilemma”. *Dr Richard St Barbe Baker, Founder, Men of the Trees and Children of the Green Earth*

“The problems of the world can be solved in a garden”. *Geoff Lawton, Permaculture Teacher/Designer*

“What permaculturists are doing is the most important activity that any group is doing on the planet. *Dr David Suzuki*

“If some food is given away, it nurtures others for a day. If many learn to grow their own, ‘end world hunger seeds’ are sown.” *Permaculture*

VISION: Within a decade, to have permaculture designed garden food forests growing in all appropriate places in urban and rural environments, progressively building community resilience to climate change, inspiring wide-spread implementation of the practice of permaculture, healing the environment, and ending unemployment and hunger.

OBJECTIVE: This poster will show how sustainable food and tree growing practices can be used to enhance life on Earth via a large pictorial story-board printed poster specifically designed to provide knowledge on how to compost and make soil, and inter-grow food and trees. To make the poster an international award-winning work of art, designed so it can be easily translated into many languages, and displayed on every classroom wall in all countries.

It will also inspire digital stories for the internet and public media, showing examples of community participation in successful growing projects to accelerate the permaculture* paradigm shift for all-age people to live more sustainably. Each subject in the poster will have an internet address for videos.

* Permaculture is an Australian design science for permanent, sustainable, agriculture which includes logical water management and the companion planting of mixed-species fruit and nut trees with under-storeys of vegetables, herbs and medicinal plants, using minimum-maintenance and maximum-yield principles. Permaculture ethics are Earth Care, People Care, Fair Share.

PARTICIPANTS: Initial development of the poster has started with collaboration between the Environment Program of United Nations Association of Australia (NSW) Inc, and the Earth Repair Foundation. Assistance has also been provided by members of the Blue Mountains Permaculture Network. Other individuals and groups are invited to join in and help, such as, educators, artists, technical and IT specialists, video producers, relevant government departments, appropriate UN Agencies, and NGOs.

THE POSTER: Is to be printed in full colour on size A1 durable semi-gloss card. At printing it will be score-folded into 8 x A4 panels for placing in a special envelope for mailing to anywhere in the world.

POSTER CONTENTS: Each A4 panel will comprise a theme with related subjects contained within it. All subjects will have images with succinct and concise descriptions that are easily translatable. Each line will be simply and concisely written for easy understanding in all languages. The poster, well-placed, will tirelessly radiate an inspirational and educational influence, 24 hours a day, 365 days a year.

A team of professional co-operators will choose the details within each panel. Carefully conceived and produced images and words, especially designed to inspire, educate and motivate in a gentle but effective fun-filled way. It will present a distillation of the world’s best practices for sustainability in a clear visual form. The poster with an accompanying multi-media educational package will have a powerful, positive impact on the next seven generations and beyond.

This is an inexpensive production that could significantly assist our human community to live more sustainably. Only one generation needs to be positively influenced to think and act more wisely to help improve the world for everyone.

continued on page 2 ...

MARKETING, DISTRIBUTION AND SPONSORSHIP: Sponsors are invited to participate and help fund the production. We appeal to government, corporate and/or private sponsors and philanthropists. With adequate funding, the estimated production time would be between four to six months.

FOOD AND TREE GROWING RACE: People of every nation can learn about and adopt the practice of permaculture as one of the world's most necessary, valuable and honourable employment activities.

Some of the subjects that are being considered for inclusion in the eight panels of the poster are:

- Humanity's position in the universe. Here cover outer and inner space and awareness of infinity. How to attain and maintain an attitude of healthy thinking and peaceful equanimity. A theme for this section could be: Think Globally, Act Locally, Respond Personally. *"The universe is my home and the human family is my tribe. The whole Earth is my birthplace and all humans are my brothers and sisters". Kahlil Gibran*
- Ecologically sustainable housing. Descriptions of eco homes and integrated villages. Illustrate retrofitting and houses made with appropriate technologies, using rainwater tanks, solar and wind power, grey water recycling and organic permaculture food gardens in and around each habitat;
- Sense of Humus composting. Establishing efficient food and medicine gardens as productive permaculture learning and growing centres in schools, backyards, parks, gaols, and rehabilitation facilities. *'Compost, instead of waste, Make humus soil, Helping nature grow the healthiest food, is FUN-WORK, not toil';*
- Capturing a time-line effect showing children planting seedling trees, and staging it over ten years comparing sizes, and then project to 40 years. Explain how growing trees benefits the Earth and all its inhabitants;
- Highlight the importance of protecting the world's remaining natural heritage and biodiversity contained in native forests, lakes, rivers and oceans, plus give practical advice and encouragement on planting and helping grow mixed species and companion grouped trees and food plants to store water in accumulating biomass, to help stabilise the climate and counteract global warming;
- Detail tips on growing and eating more raw living and sprouting foods to help acquire immunity efficiency, reverse disease and attain and maintain vital good health;
- Renewable energy and conservation systems; show the latest appropriate technologies and how they can be optimally applied to help humanity on the path to manifesting sustainable abundance for all;
- Further subjects that may be considered for inclusion could be found in the Earth Repair Charter 2020 global solution strategy and the Imagine Back From The Future movie outline. These two single-page documents can be seen at earthrepair.net

If you would like to help this proposal actualise, please share these two pages to inform others, and/or write a personal letter recommending the concept to your local Members of State and Federal Parliaments.

Expressions of interest and offers of assistance to advance this opportunity are invited and welcomed.

If there are any aspects of the production that you'd like to contribute to, please contact Team ERF at the Earth Repair Foundation (ERF), PO Box 503, Katoomba, Blue Mountains, NSW, 2780, AUST Phone: 02 4782 2625, 0408 267 195, info@earthrepair.net

PERMACULTURE LEARNING FOR REFUGEE DETENTION CENTRES and TENT CITIES for the HOMELESS.

This Thought-Seeding statement is prompting people of all nations to lobby all levels of their local, state and national governments, to enable the 72 hours of Permaculture learning to be integrated into all youth, refugee and asylum seeking detention centres, correctional service facilities, and refugee camps everywhere including Tent Cities for the Homeless.

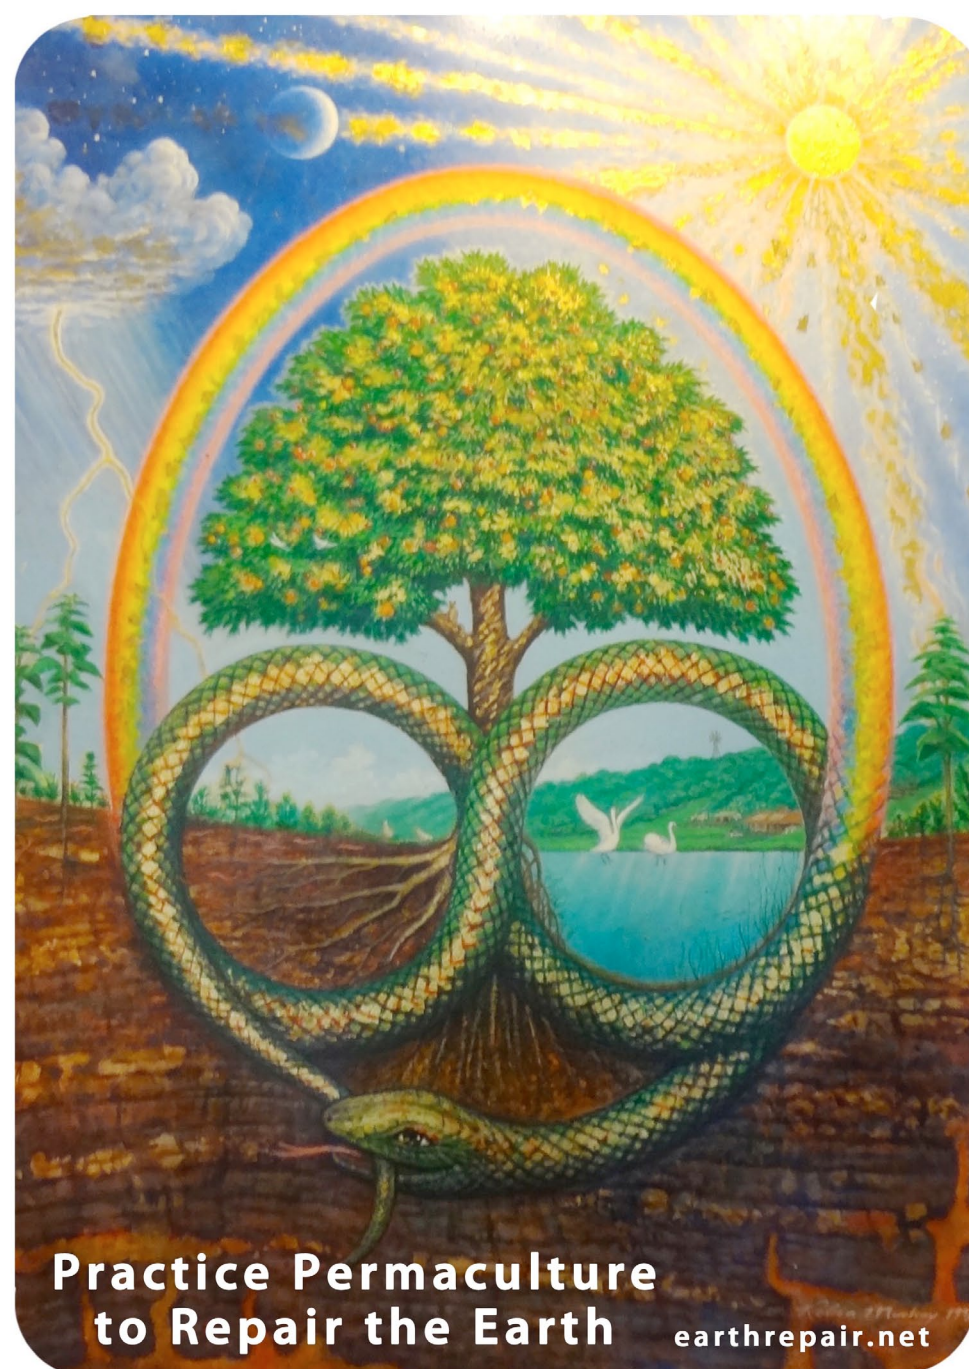

This will enable everyone to participate in earth repair actions for a sustainable and abundant future for all.

Further, the 72 hours of Permaculture learning, now more than ever, needs to be included in all schools, colleges and universities and all other institutes of education. This vital information can be learned over weeks, months and/or years. Anyone can begin learning from now by browsing through the hundreds of pages of picture stories and videos on <https://permaculturenews.org>

Efficient food and medicine gardens can be established as productive learn- ing and growing centres in home and school yards, community gardens, detention centres and jails. Within a decade, increasing numbers of food-forests and eco-villages will be growing in every country.

Permaculture is an Australian innovation combining Social Design Science and Permanent Agriculture. It reveals how to co-operate with all Earth's elements, species, climates and peoples enabling everyone to live lives filled with absolute sustainable abundance.

Please share this post with friends and family, community organisations, government ministers, and the media. Thank you.

A GLOBAL PETITION TO TRANSFORM SEWAGE INTO TREES

"Planting and helping grow increasing quantities of appropriate trees, is the scientific solution to Earth's environmental dilemma".

Dr Richard St Barbe Baker, Q.B.E, LL.D, Internationally renowned 'Man of the Trees'

Ocean and river sewage outfalls represent a major threat to natural aquatic ecosystems and create a potential human health hazard. Through the regional treatment of sewage effluent using the world's best practice methods, and recycling this to irrigate and fertilise sustainable timber plantations, would help create: employment; increase biomass; absorb CO₂; reduce pollution; help mitigate climate change; begin to reverse global warming; and produce tangible common wealth for present and future generations.

There is an urgent need to stop the waste of materials that have potential to be transformed into valuable resources for community advancement and world improvement.

Therefore we respectfully ask every government to legislate for:

- * putting an end to the unnecessary practice of wasting primary treated sewage effluent, and instead, use this resource in sensible, ecologically resourceful and productive ways;
- * using the World's Best Practice in ecologically sustainable development, planting and helping grow increasing quantities of appropriate trees in all appropriate places;
- * fertilising and irrigating sustainable timber plantations wherever possible with treated effluent, in a similar way to the successful Chinese forestry model of inter-cropping fast growing trees;
- * implementing strategies to transport treated sewage to suitable arid tree growing areas, either by back-loading via empty coal trucks, tunnelling and/or installing pipes along railway lines and pumping by using solar and other renewable energy sources;
- * progressively transferring technological expertise, funding and resources from national military sectors to help implement these sustainable objectives, and to motivate the international community to follow the example.

Please participate in this global thought-seeding campaign by petitioning and networking your local, state and national political leaders.

We ask you to print this page and write a friendly, positive supportive letter on the reverse side to give or send to your local politicians.

If you are able to help by starting an online Petition to network this proposal globally, that would be awesome. Thank you

HELP RESCUE THE FUTURE with this PLAN FOR PEACE

Part of the plan is to thought-seed the creation of a Multi-Faith Learning Centre in Jerusalem or any other more appropriate place; ideally it will be within the conscious awareness of every individual person, dedicated to continuous optimistic thinking and NOWwww as the latest best time for all humanity. This Learning Centre will help enable all humanity to co-exist in harmony as one family, sharing the Earth as a common home.

Optimistic Nowist Thinking consists of applying the most positive knowledge and useful wisdom from every religion, faith and philosophical ideology towards the creation of a safer, saner, healthier, happier and more loving world for everyone.

What is Nowism? Nowists are people who are dedicated to optimism and enjoying the latest time as their best time knowing that even better is yet to come. Optimistic Nowist Thinkers always look on the positive side of life with an attitude of gratitude. They're confident about turning difficulties into opportunities and transforming problems into solutions.

You are invited to participate in this Plan For Peace to help honour the countless numbers of people throughout time who have unjustly died at the hands of aggressors; particularly those who continue to suffer human rights abuses today.

In all of history, now is the best time for each of us to recognise and respect ourselves and every other person as a unique, original, unrepeatable, valuable and important citizen of Earth. All humans are born free and equal in dignity and human rights. We share this beautiful World with more than seven billion other individual kindred spirits in the common quest to attain and maintain inner and world peace.

The World Unity and Peace emblem contains icons and symbols representing most of the diverse beliefs that have influenced humanity throughout history. This emblem is designed to motivate achievement of inner and world peace for enjoyment by everybody and to prompt co-operation between all religions, faiths, ideologies, philosophies, schools of thought, peoples and nations.

The icons embraced within the emblem collectively represent the ideological beliefs of the majority of the world's people. From the top they include in clockwise order: Aboriginal; Indigenous American and Canadian; Polynesian; Tribal African; Rastafarian; Communism; Socialism; Paganism; Science; Bahai; Sufism; Islam; Christianity; Judaism; Egyptian; Taoism; Hinduism; Sikhism; Mayans; Shintoism; Buddhism; and Zoroastrianism. Other relevant and appropriate schools of thought are to be added in the final document.

Several years ago, the Interfaith Program of the United Nations Association of Australia (UNAA) (NSW) Inc endorsed the establishment of a local Council for World Unity and Peace to research, develop and implement an action plan to motivate the United Nations to convene an International Council for World Unity and Peace (ICWUP).

The Council's purpose is to create a World Unity and Peace web site containing authentic, succinct and concise summaries of the history and essential precepts of each belief. People will be invited to participate and selections of practical knowledge and useful wisdom from every culture will then be made into a Now Age book and posters of true wisdom for wide circulation.

Selections can be read at community gatherings of Churches, Houses of Worship, Mosques, Shrines, Synagogues, Temples, and throughout the world.

ICWUP is proposed to consist of elected leaders from each group represented. They will research and contribute their very best descriptive summaries for inclusion in the website and book towards helping all people realise their inner-peace, transcend differences with all others, peacefully co-exist and fully enjoy, healthy, happy and loving lives. The posters, well-placed, will continuously radiate an inspirational and educational influence.

The Council for World Unity and Peace proposal has been created in response to an Earth Repair Charter objective which states: "Encourage all religions, faiths, nations and peoples to co-exist in harmony as one family, sharing the Earth as a common home". The one-page global-vision Charter has been produced to promote implementation of a long-term world-wide action plan for a future without war, and the peoples of Earth united in peace. It presents succinct, practical, self-evident and achievable solutions to help bring about a sustainable and peaceful future. The Charter can be seen at earthrepair.net

To effectively enhance the future for everyone, only one generation needs to be positively influenced to think and act more wisely to help improve the world for all.

Most recognise that inner peace and world peace are interrelated. Peace on Earth depends on the level of peace within each individual. Peace can be found here and now within each one of us as a hidden splendor, nearer than hands and feet and closer than breathing. It is simply there waiting to be realised and experienced.

The proposed World Unity and Peace website and Now Age Wisdom Book and posters are to provide a positive and optimistic approach to enable a better understanding between different beliefs. The quest is to reveal useful wisdom and valuable knowledge to enable each person to experience continuous and increasing peaceful happiness.

Included in the productions will be the astronomical perspective and humanity's position in the universe. It is to cover outer and inner space and awareness of infinity and eternity consciousness, past, present & future.

Now more than ever, let's all do everything we can to help peace grow in the world. Think peace. Talk peace. Love Peace. Resolve conflicts for peace. Walk for peace. Smile for peace. Enjoy inner peace and visualise world peace. Make and wear Peace Now badges or T-shirts. Write letters and sign petitions for a Ministry for Peace in every country. Make and display peace flags or placards. Help grow food forests for peace. In silence or audibly, regularly sing, chant or think 'peace now' for an instant mood-elevating experience.

Please network this information with your local State and Federal Members of Parliament, religious leaders and the media. Ask them to help lobby the United Nations to make the commitment to establish ICWUP as an urgent priority. Media's participation is encouraged to publicise this initiative as priority news.

A GLOBAL PETITION for a Department or Ministry for Peace in Every Government

**There is an urgent need to resolve
conflicts peacefully that exist among
ourselves, within our regions,
countries and the world.**

**Therefore we respectfully ask every government to legislate to
establish a Ministry or Department for Peace to achieve the following:**

- research, gather, analyse and utilise information and recommendations from local and global peace organisations;
- create policies that assist how to attain and maintain peace at all levels of society, personal, domestic, regional, state, federal and global;
- support and influence the already existing global movement for every nation to establish a Ministry or Department for Peace;
- encourage global communities to observe and celebrate all endeavours for peace on a personal, local, national and international level;
- administer Peace Academies as government initiatives to teach world's best practice in creative mediation and conflict resolution methods, to enable peacemakers to work among domestic and international populations;
- finance the development of educational programs for civilian peacekeepers in schools, universities, the military, and among conflicting cultures everywhere;
- provide prevention and healing programs addressing domestic, gang, drug, alcohol and gambling related violence towards a world-wide culture of lasting inner and world peace.

Please participate in this global thought-seeding campaign by petitioning and networking your local, state and national political leaders.

We ask you to print this page and write a friendly, positive supportive letter on the reverse side to give or send to your local politicians.

If you are able to help by starting an online Petition to network this proposal globally, that would be awesome. Thank you.
