

**An ancient prophecy says:  
'Nations will not learn war any more'.**

Let this be the time for people everywhere to unite for peace and make this prophecy actual and factual.

As adoption of the [Earth Repair Charter Global Solution Strategy](#) self-perpetuates, there will be an abundance of funding available by transitioning from wasteful annual global military budgets of over \$2 Trillion dollars (that's 2 thousand billion dollars a year) to invest into funding the achievable solutions on the following list.

The transition will include engaging key personnel, resources and expertise from all national military service sectors to implement **Global Earth Repair projects in co-operation with all the World's people, communities and nations to help solve our planet's environmental climate crisis.**

### ~ GLOBAL EARTH REPAIR PROJECTS ~

1. The 1st Global Earth Repair Conference (GERC) was held in the USA in May 2019; fund GERC's in every nation ASAP;
2. Assist to regenerate degraded lands, seas, lakes and rivers;
3. Compost all available bio-degradable materials to create massive volumes of humus-rich soil and breed increasing numbers of Earth Worms at the same time. This will help replenish and revitalise the Earth's depleted top-soils;
4. Manufacture increasing numbers of hygienic, aerobic, no-dig, conical shaped, composting bins from recycled plastics, for every home yard! Then, all bio-degradable resources can be returned to the Earth as humus;
5. Provide safe clean water for all  
*by creating large-scale solar and renewable-energy powered desalination plants and pumping stations in strategic locations throughout the world, then piping the purified water to arid areas; this will enable garden food-forests to be growing in increasing abundance to end hunger and unemployment, once and for all;*
6. Cultivate the learning of Permaculture ethics and principles in every school towards ending hunger & under employment;
7. Establish productive veganic Permaculture food-forests in home yards, schools and all appropriate communal places;
8. Adopt organic farming methods in the growing of all food crops including hemp for fibre;
9. Make compost from treated sewage to help trees grow; *"Planting and helping grow increasing quantities of appropriate trees, is the scientific solution to Earth's environmental dilemma."*  
*Dr Richard St Barbe Baker, Founder 'Children of the Green Earth';*

10. Disarm nuclear weapons and ban all weapons of mass-destruction; eradicate all land mines;
11. Protect in perpetuity, all remaining high conservation value native forests to conserve all vital bio-diversity;
12. Accelerate appropriate mixed-species plantation forestry;
13. Provide free universal education and health-care for all people;
14. Fund the International Rights of Nature movement so all sentient beings can be respected to live and die peacefully;
15. Adopt the wisdom of Hippocrates who taught "Let your food be your medicine, and your medicine be your food";
16. Motivate all to acquire good health & immunity efficiency;
17. End malnutrition and starvation by healthy practices;
18. Implement a Universal & International Bill of Human Rights;
19. Recognise Sovereignty Treaty Rights for all Indigenous Nations and Peoples by giving back a fair share of their traditional and sacred lands, and ensuring their full representation in all United Nations Forums;
20. End homelessness world-wide by helping provide sustainable shelter for all;
21. Use only 'new-clean' renewable energy systems based on the 'World's Best Practices';
22. Replace 'opposition party' politics with 'collaboration party' politics in all governments;
23. Provide free family planning and birthing and parenting advice for a stable growth in our world's population;
24. Ending racial and religious tensions by recognising our one humanity and Earth as the common home for all people, we, all sovereign citizens of the infinite universe;
26. Stopping further global warming, climate change, ozone depletion and mass extinction;
27. Replace single use plastics with non-polluting alternatives;
28. Build suitable air craft to effectively water bomb out-of-control forest fires using military air forces of every nation;
29. End self-harm and suicide by encouraging effective social inter-connectedness;
30. Solve concerns about the safety of chem-trails, fluoridated water, geo-engineering, 5G, and mandatory vaccinations;
31. Recognise the equality of genders and sentient species;
32. Establish a Ministry or Department for Peace in every nation to administer the end of domestic and all violence;
33. Embrace Inner and World peace for everyone for all time.

This is the CND emblem for Complete Nuclear Disarmament.

## BELIEVE IT and ACHIEVE IT

BE PART OF THE SOLUTION BY SHARING THE THOUGHT-SEEDS IN THIS INITIATIVE WIDELY.

Please send to community leaders, politicians, the media, and family and friends. Thank you!

**This 2020 VISION emblem is a modern interpretation of an ancient prophecy that says: 'nations will not learn war any more'.**

**This is the time that humanity can unite for peace and make this prophecy actual and factual. Everyone can now learn and practice the principles of permaculture (permanent agriculture)\* and how to live long, healthy and peaceful lives. Permaculture Ethics are: Earth Care; People Care; Fair Share.**

***“Planting and helping grow increasing quantities of appropriate trees is the scientific solution to Earth’s environmental dilemma”. Dr Richard St Barbe Baker, Founder, Children of the Green Earth, 1889-1982***

**2020 VISION** invites everyone to participate in the achievable quest for all nations to transition from wasteful military budgets, towards eco-system restorations and creating abundant and sustainable food-forests in urban areas everywhere.

The 72 hour curriculum of Permaculture learning needs integrating into all education systems and institutions, including correctional centres, refugee and asylum-seeking centres and tent cities for the homeless. Efficient food and medicine gardens can be established as productive learning and growing centres in home and school yards, community spaces, detention centres and gaols.

**With a realistic, feasible and achievable global vision, people and humanity will thrive.**

Within a decade, increasing numbers of eco-villages will be growing in urban areas of every nation. By planting and helping grow an abundance of home garden food-forests, together we can create ethical, honourable and practical employment, whilst providing an abundance of fresh healthy living foods for present and future generations.

**2020 VISION** motivates for all continuously available and appropriate bio-degradable materials to be composted via hygienic, aerobic, no-dig composting methods including with bins made from 100% recycled plastics. This will enable the breeding of increasing numbers of earth worms and massive amounts of humus-soil to be used in replenishing Earth’s depleted top-soils and helping nature to organically grow forest food gardens in home yards and all other appropriate places.

Lobbying all levels of **local, state and national governments** will enable everyone to participate in earth repair actions for a sustainable and abundant future. Enough people participating in this will help enhance local and global co-operation, help mitigate and reverse climate change, and create valuable natural capital, honourable employment and end world hunger.

**The vision is for a world community of caring and sharing people, working and living in good health and in harmony with all other beings, in peace and sustainable abundance.**

\*permaculture = permanent culture + agriculture. It’s a social design science that is already helping humanity to thrive. Learn more now by browsing through the hundreds of pages of picture stories and videos at <https://permaculturenews.org>

**Please share this post with friends and family, community leaders and organisations, government ministers and the media. Thank you.**
