

## Earth Repair Foundation

ERF is motivating for world-wide adoption of the **Earth Repair Charter Global Solution Strategy** to be the most prominent theme for this latest Decade ~ 2021~2030.

Volunteers at Team ERF offer these thought-seeds for achievable solutions.

# Vision 2030 for a Decade of Peace

*When enough people lead, the leaders will follow!*

ERF's primary mission is to inspire, educate and motivate present and future generations towards a safer, healthier, peaceful and more sustainable world. Our aim is to help people realise we are all related and co-operation is the natural order of life for everyone.

The essence of these pages to which incalculable research, development and intelligence has been invested, will help enable increasing numbers of people to participate in practical actions for community advancement and world improvement.

The **Earth Repair Charter Global Solution Strategy** is from the people and for all the people, and is the primary manifesto of the earth repair movement. After wide consultation, numerous achievable solutions have been carefully defined. The Charter has been endorsed by many eminent leaders from around the world summarising the true value of this potentially-historic document.

Endorsements can be read at [earthrepair.net](http://earthrepair.net) and everyone is invited and encouraged to read, absorb, adopt and network the Charter.

If you find some or all of these ideas inspiring and useful, please promote them with friends, family, community leaders and on social and main stream media networks.

**“What The World Needs Now is A Sense of Humus”.**

Click to see a short video on composting in recycled plastic bins and hear the sense of humus song.

<https://youtu.be/V7VVRPdT7o0>

A primary element of the earth repair movement is home-yard composting and organic permaculture food-gardening to help ensure food security for present and future generations. It will also enable the practise of hygienic, aerobic, no-dig, composting in highly efficient compost bins, made from 100% recycled plastics.

By adopting the minimum-maintenance, maximum-yield principles and ethics of permaculture, which shows how to co-operate with the sun, the earth, the wind and the rain; this will become one of the world's most honourable and ethical employment systems.

Large scale soil production can also be enabled, by recycling and composting all currently wasted bio-degradable resources, including best-practise treated sewage.

Abundant eco-villages are encouraged to increasingly grow from within suburban areas of towns and cities in each nation around the world.

Thank you for reading this from Team ERF [earthrepair.net](http://earthrepair.net)

The VISION 2030 emblem is a modern interpretation of a Biblical prophecy that says: 'Nations will not learn war any more'.

Now is the time for all of humanity to unite for peace and make this prophecy actual and factual.

The vision is for a world community of caring and sharing people, working and living in good health and in harmony with all other beings, in peace and sustainable abundance.

**NOW IS THE TIME FOR ALL GOOD PEOPLE TO COME TO THE AID OF THE EARTH!**

#### THE VISION 2030 INITIATIVE:

- **invites** everyone to participate in the achievable quest for all nations to transition from wasteful military budgets, towards eco-system restorations and creating abundant and sustainable food-forests in urban and rural areas everywhere.

- **Encourages** people to learn and practice the minimum-maintenance, maximum-yield principles of permaculture and how to live long, healthy, sustainable and peaceful lives.

- **Motivates** for all continuously available and appropriate bio-degradable materials to be composted via hygienic, aerobic, no-dig composting methods with bins made from 100% recycled plastics. This will enable the breeding of increasing numbers of earth worms and massive amounts of humus-soil to be used in replenishing Earth's depleted top-soils and helping nature to organically grow forest food gardens in home yards and all other appropriate places.

- **Growing** increasing numbers of eco-villages in urban areas in every nation will provide an abundance of fresh healthy living foods for present and future generations.

- **Planting** and helping grow an abundance of home garden food-forests will create ethical, honourable and practical employment.

- **Permaculture learning** needs to be integrated into all educational systems and institutions, including correctional centres, refugee and asylum seeking centres and tent cities for the homeless. Permaculture is a social design science that is already helping humanity to thrive. Learn more by searching and browsing through the hundreds of pages of picture stories and videos on internet.

**Permaculture Ethics are:  
Earth Care; People Care; Fair Share.**

- **Establishing** efficient food and medicine gardens as productive learning and growing centres in home and school yards, community spaces, detention centres and gaols.

- **Lobbying** all levels of local, state and national governments to enable everyone to participate in earth repair actions for a sustainable and abundant future.

- **VISION 2030** will encourage local and global co-operation, help mitigate climate change, and create honourable employment to help end world hunger.

**Vision 2030 is part of the Earth Repair Charter Global Solution Strategy at [earthrepair.net](http://earthrepair.net)**

**Please share this page with friends and family, community leaders and organisations, government ministers and the media. Thank you.**

The VISION 2030 initiative is developed by the Earth Repair Foundation and is endorsed by: Transition Blue Mountains; Permaculture Blue Mountains; United Peoples Association Australia; and the Sustainability Research Institute, Australia.

**An ancient prophecy says:  
'Nations will not learn war any more'.**

Let this be the time for people everywhere to help make this prophecy actual and factual to help keep war out of our future.

As adoption of the [Earth Repair Charter Global Solution Strategy](#) self-perpetuates, there will be an abundance of funding available by transitioning from wasteful annual global military budgets of over \$2 Trillion dollars (that's 2 thousand billion dollars a year) to invest into funding the achievable solutions on the following list.

The transition will include engaging key personnel, resources and expertise from all national military service sectors to implement Global Earth Repair projects in co-operation with all the World's people, communities and nations to help solve our planet's environmental climate crisis.

### ~ GLOBAL EARTH REPAIR PROJECTS ~

1. The 1st Global Earth Repair Conference (GERC) was held in the USA in May 2019; fund GERC's in every nation ASAP;
2. Assist to restore eco-systems on lands, seas, lakes and rivers;
3. Compost all available bio-degradable materials to create massive volumes of humus-rich soil and breed increasing numbers of EarthWorms at the same time. This will help replenish and revitalise the Earth's depleted top-soils;
4. Manufacture increasing numbers of hygienic, aerobic, no-dig, conical shaped composting bins from recycled plastics for every home yard! Then, all bio-degradable resources can be used to restore degraded lands;
5. Provide safe clean water for all by creating large-scale solar and renewable-energy powered, desalination plants and water pumping stations in strategic locations throughout the world, then piping the purified water to arid areas; this will enable garden food-forests to be growing in increasing abundance to end hunger and unemployment;
6. Cultivate the learning of Permaculture ethics and principles in every school towards ending hunger & under employment;
7. Establish an international food and tree growing race instead of an arms race, to help solve Earth's climate crisis;
8. Adopt organic farming including regenerative agriculture in the growing of all food crops including hemp for fibre;
9. Make compost from treated sewage, to help trees grow; *"Planting and helping grow increasing quantities of appropriate trees, is the scientific solution to Earth's environmental dilemma."* Dr Richard St Barbe Baker, Founder 'Children of the Green Earth';

11. Protect in perpetuity, all remaining high conservation value native forests to conserve all vital bio-diversity;
12. Accelerate appropriate mixed-species plantation forestry;
13. Provide free universal education and health-care for all people;
14. Fund the International Rights of Nature movement so all sentient beings can be respected to live and die peacefully;
15. Adopt the wisdom of Hippocrates who taught "Let your food be your medicine, and your medicine be your food";
16. Motivate all to acquire good health & immunity efficiency;
17. End malnutrition and starvation by healthy practices;
18. Disarm nuclear weapons and ban all weapons of mass-destruction including bio weapons; eradicate all land mines;
19. Implement a Universal & International Bill of Human Rights;
20. Recognise Sovereignty Treaty Rights for all Indigenous First Nations Peoples by giving back a fair share of their traditional and sacred lands, and ensuring their full representation in all United Nations Forums;
21. End homelessness world-wide by helping provide sustainable shelter for all;
22. Use only 'new-clean' renewable energy systems based on the 'World's Best Practices';
23. Replace 'opposition party' politics with 'collaboration party' politics in all governments;
24. Provide free family planning and birthing and parenting advice for a stable growth in our world's population;
25. Ending racial and religious tensions by recognising our one humanity and Earth as the common home for all people, we, all sovereign citizens of the infinite universe;
26. Stopping further global warming, climate change, ozone depletion and mass extinction;
27. Replace single use plastics with non-polluting alternatives;
28. Build suitable air craft to effectively water bomb out-of-control forest fires using military air forces of every nation;
29. End self-harm and suicide by encouraging effective social inter-connectedness;
30. Solve concerns about the safety of chem-trails, fluoridated water, geo-engineering, 5G, and mandatory vaccinations;
31. Recognise the equality of genders and sentient species;
32. Establish a Ministry or Department for Peace in every nation to administer the end of domestic and all violence;
33. Embrace Inner and World peace for everyone for all time.

This is the CND emblem for Complete Nuclear Disarmament. The acronym is in the design!

## BELIEVE IT and ACHIEVE IT

BE PART OF THE SOLUTION BY SHARING THE THOUGHT-SEEDS IN THIS INITIATIVE ASAP.

Please send to community leaders, politicians, the media, and family and friends. Thank you!
