WE ARE ALL HERE ON PLANET EARTH NOWWW AS SPIRITUAL BEINGS BEING HUMANS, EACH ONE OF US BORN FREE AND EQUAL IN DIGNITY AND RIGHTS AS CITIZENS OF THE INFINITE AND ETERNAL UNIVERSE

THIS NOW AGE ENTERPRISE FOR INNER AND WORLD PEACE HAS STARTED AND WILL CONTINUE FOREVER AS NOWWW IS ALL THERE IS !

**THIS PEACE NOW STORY AND SCRIPT IS A WAY UP FROM DOWN!  
IT'S BASED ON OPTIMISM , NOW ~ISM AND WISDOM AND CAN  
ENABLE ANYONE, TO ATTAIN AND MAINTAIN INNER PEACE.**

An unhappy man who had just lost his job, was walking along a city street feeling miserable and defeated by life's challenges. He noticed this piece of paper titled **AWAKEN NOW TO THE EXPERIENCE OF INNER PEACE** lying cleanly on the ground. He picked it up and the next words that impressed him from the paper were, 'Always remember to look on the bright and positive side of life'. He became curious and decided to read further as at that time he couldn't see a bright or positive side?

The paper congratulated the reader on being a great champion winner of life ahead of millions of competitors at the time of conception when each of our parents came together to co-conceive each and every one of us. It went on to explain how we each gestated in our mother's womb for around 280 days, we birthed, and then lived our whole life right up to the present moments of nowww, which were described as potentially the latest greatest best time so far in the history of the universe. 'Wow' he thought, that IS positive!

At first, the man found it difficult to accept what he was reading, the information seemed right and true, but he had never come across anything like this before, including the header images on this page. The paper went on to tell how, according to science, while he was reading the words, the Earth is travelling in orbit around the Sun at nearly thirty kilometers a second, or 1800 kilometres every minute, and almost 108,000 kilometres every hour. This reminded him of a song he knew as a younger person performed by the [Moody Blues titled, 'Thinking is the best way to travel'](#). For a moment he transcended his troubles and he began to think more positively and feel optimistic again.

In all the history of the universe the paper revealed, there has never been and never will be, anyone else exactly like you. You are a unique, unrepeatable, valuable and important member of an awesome human family of almost 8 billion other precious unique human kindred spirits, living on planet Earth nowww in this year 2022. Each one of us is born free and equal in dignity and human rights, all with the potential to individually and collectively attain and maintain inner and world peace.

This is powerful information he thought. Why hadn't he come across any of this previously? He began to feel quite elated and started considering his life in a different way.

He then saw a McNaturals Plant Based Wholefood Vegan Cafe up ahead and felt like drinking a Green Sprout Fruit Smoothie. He decided to go there and continue reading.

He went to the counter, ordered his smoothie, looked around and noticed two younger people, a man and a woman sitting at one of the tables. They were looking at the very same paper he was reading. They were both smiling and seemed excited.

He showed them his paper and asked if he could join them and they said "of course". The couple excitedly explained how they found their paper a little earlier on a seat in a train they were travelling on. They said they were finding the content to be very powerful mind-enhancing information.

The three became collectively curious, as the source of the paper's origin seemed to be anonymous. No address, phone number, email or website was on the paper. The only name that was given to identify any source was 'DARAMA' which was described as (DA) for Father, (RA) for Sun, (MA) for Mother.

The next paragraph stated, this paper has been created especially for **YOU**, yes **YOU** the reader, and no matter what has happened in your life previously or where you are at currently in your relationship with yourself, others, and your life generally in the universe, you now have the opportunity to absorb and adopt the ideas contained on this piece of paper to enable your future time to be filled with joy, love, peace, freedom, happiness and optimism.

Optimism was then described as the attitude that all things can be ordered for good and that everything happens for the best. It is identifying the presence of good in all things, enabling an anticipation of optimal outcomes and the most favourable results. An optimistic mental attitude finds the good in everyone and everything. It enables the ability to turn difficulties into opportunities and useful learning experiences and an opportunity to transform problems into solutions. The paragraph explained that with optimistic thinking, goodness ultimately triumphs, even when it seems that evil persists. Goodness shows itself in the wonders that abound all around everywhere all the time. If one looks carefully, every atom, every seed, every living thing, and every moment, are all miraculous wonders. The almighty god is the good in everyone and everything!

The paper pointed out that each one of us is made up of trillions of atoms in a physical human form. It explained that essentially, we are spiritual beings having a human experience and each of us is an inlet to an infinite and eternal realm of universal mind. And, even though we are being humans, we are primarily immortals with indestructible consciousness.

DARAMA then went on to explain that the long awaited and much anticipated great planetary and human spiritual awakening, is first realising that each one of us are the chosen ones we have all been waiting for, and second we realise that as spiritual beings, Heaven, Nirvana, Samadhi, Satori and Eternal Bliss, including the Christ, Buddha, Krishna and Cosmic conscious awareness, are all attitudes of perception that are nearer than hands and feet and closer than breathing.

In awe, the three then agreed to take a break from reading the paper to discuss what they had just read and also to discover more about each other.

The man who had just lost his job had a wife and four school age children, a son and three daughters, and even though his wife did some part time work, he was worried about how he was going to be able to support his family. The couple were pregnant, not working, and looking for ways to live a family life.

The topic of what work could be done to earn a living became a subject of discussion. The older man glanced again at the paper and he saw and said the word Permaculture. "What's permaculture" the woman asked?

It was described as a modern gardening design science which shows how to co-operate with the Sun, the Earth, the Wind and the Rain, and apply minimum-maintenance maximum-yield Permaculture design principles to enable anyone and everyone to participate in creating lives filled with absolute sustainable abundance within the ethics of Earth Care, People Care, Fair Share.

The wonderful thing about Permaculture the paper explained, is that anyone can begin to learn and practice this timely and important Australian innovation from now on; simply by typing the word Permaculture into any internet search panel to discover thousands of picture stories and videos from the millions of people on every continent who have already made the transition to this sustainable self-employment lifestyle.

There are billions of home yards in suburbs of towns and cities throughout the world that wait to be converted into abundant food-forests, and many home owners are already employing people to install and maintain productive home food-gardens.

DARAMA then invited the reader to consider embarking on an exciting and adventurous journey of learning, and to adopt this whole paper as a story-script that contains a distillation of much useful knowledge and practical wisdom presented briefly yet comprehensively, inspired by the principle of less is more

**The script is for recording with one's best reading voice to listen to repeatedly whilst awake or asleep, as often as required, until it is memorised. It contains reminders of self-evident truths in brief sentences and paragraphs that are clear and concise.**

Prevention is much better than cure.

Self-conquest is the greatest of victories.

Short sayings often contain much wisdom.

Sometimes I find the best bridge between despair and hope is a good night's sleep.

Success is not final, failure is not fatal; it is the courage to continue that counts.

The inner light I cannot find is known to my unconscious mind, I have no reason to despair because I am already there.

The impossible is what nobody can do until somebody does it.

The universe is my home and the human family is my tribe. The whole Earth is my birthplace and all humans are my brothers and sisters.

To an optimistic nowist thinker, the latest greatest best time in all of eternity and in the history of the universe is nowwww

This is my one and only precious life.

We are the ones we've been waiting for.

What is now proven was once only imagined.

Whatever I can do or dream I can, I begin it. Boldness has genius, power and magic in it.

Recording and repeated listening to, and/or reading this script regularly, can enable me or anyone to absorb and memorise this innovative 'Now Age' method of self-transformation and self-enlightenment.

The script is based on the 'less is more' or some say 'less is best' principles, so much pure essence is contained in these sentences and paragraphs

The script can effectively and increasingly enable the adoption of good healthy habits and cutting the ties that can bind me to pessimistic thinking and unhealthy behaviour.

Basically, from now on I am prompted to cultivate good habits to supersede and leave behind the not so good ones.

From now, I am aiming for my last breath to be my best one and every breath and moment, between now and then, an improvement on the previous. To get to heaven I simply take it with me.

I am a full-time student of life seeking to learn useful knowledge from every situation. By learning this script I can achieve my optimum personal potential.

I enjoy the blissful happiness of eternity consciousness comprising the past, present and future.

I respect and honour my amazing physical body by regular exercise and eating and drinking the healthiest and most medicinally nutritious, raw, living, natural foods available.

Mindfully prepared lightly cooked foods can have a healing and rejuvenating impact on my physical body and mind. I make sure that everything I eat has medicinal value. My food is my medicine and my medicine is my food.

Ideally, I regularly blend or grate and eat, organically grown, anti-oxidant and enzyme empowered raw edible leaves, with sprouting seeds and nuts, in-season fruits, vegetables and herbs. Or, I pick and eat nutrient dense leaves while walking through a food-forest garden.

By eating and drinking raw, living, plant-based wholefoods as much as possible I help accelerate the reproduction of my body cells and every serve gives me a physical and mental rejuvenation boost. I regularly practice these life extension principles to acquire greater good health and increase my immunity efficiency to live healthily for as long as I can.
